

City of Ljubljana

City of Ljubljana

Being an exemplary city

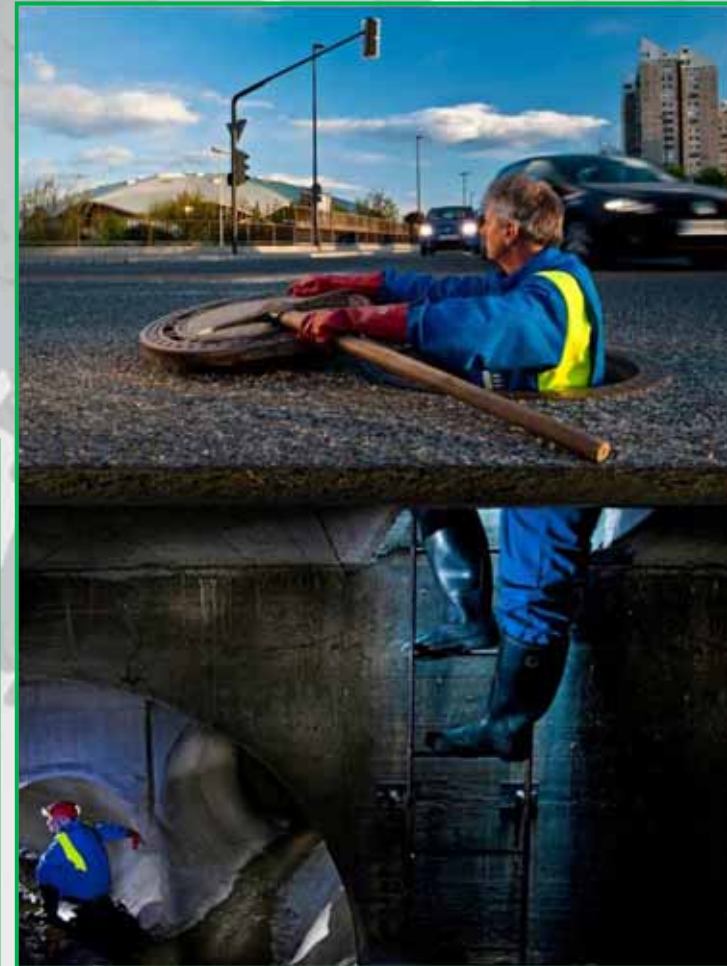

- High-quality drinking water accessible to everyone -

City of Ljubljana

Daily care
for high-quality services
- sewage and sewerage system -

City of Ljubljana

Waste management

- sharing best practice and connecting the region -

City of Ljubljana

Waste management

- sharing best practice and connecting the region -

51 underground collectors replacing 3500 containers

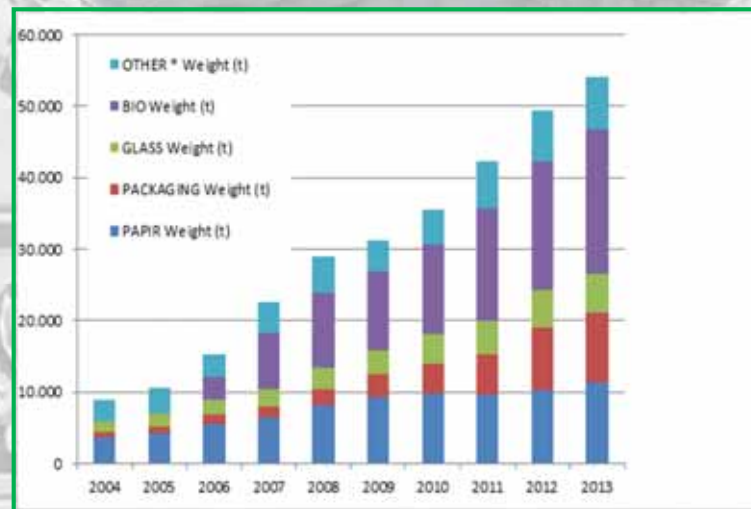

City of Ljubljana

Waste management - exceeding expectations -

Growth in the quantities of separately collected fractions

Zerowaste goal = 78%

Enzo Favoino @enzofavoino · Mar 22

Ljubljana at 55% separate collection rate. likely, the Capital with highest recycling rate - and committed to go further! #zerowaste
