

WEBINAR

REFLECTIONS ON URBAN TRANSPORT IN THE NEW CONTEXT EMERGING FROM THE COVID-19 CRISIS

Wednesday, 25 November 2020, 14.00-15.30 CET

Please connect here: <https://who.zoom.us/j/99991563873>

Meeting ID: 999 9156 3873 | Passcode: y5f0x=gD

English, French and Russian with simultaneous translation

THE PEP

Transport, Health
and Environment
Pan-European Programme

Background

How is the COVID-19 crisis affecting current and future urban mobility and transport systems, along with urban planning? What are the risks and opportunities? What will be the “old” and “new” problems in the post-pandemic period? How will urban transport and mobility be redesigned and adapted to accommodate and/or manage new trends and emerging needs?

Answering these questions will be at the core of this Seminar organized by the Transport, Health and Environment Pan-European Programme (THE PEP) and will reinforce our understanding of the reality, the challenges and opportunities for healthier, more equitable, sustainable and resilient transport.

Programme

Moderated by **Robert Thaler**, THE PEP Chair, Federal Ministry for Climate Action, Environment, Energy, Mobility, Innovation and Technology of Austria

Welcome and introduction

WHO Regional Office for Europe and **United Nations Economic Commission for Europe**

Equitable transport and health during and after the COVID-19 pandemic

Prof. **Harry Rutter**, Global Public Health, University of Bath

Micromobility: emerging Urban Transport Trends

Prof. **Frauke Behrendt**, Eindhoven University of Technology

Questions and answers

Healthy urban living for everyone: Utrecht’s answer to the COVID-19 crisis

Miriam Weber PhD, Senior Policy Advisor, City of Utrecht

Moscow transport against the virus

Alexander Polyakov, Director, Research Institute MosTransProject

Health is a political choice

Charlotte Marchandise, WHO Expert, Former Deputy Mayor of Rennes/President of WHO Healthy Cities French Network

Questions and answers

Launching of the technical guidance

“Supporting healthy urban transport and mobility in the context of COVID-19”

Closure
